XHTML, CSS, PHP, Ruby, Python, VB.NET, Javascript (jQuery, Mootools, Raphael), XML, XSLT, DOM, Adobe Photoshop, Version Control (SVN, GIT, CVS), Drupal, Wordpress, Symphony

Linux, UNIX, OS X, Windows.

/ Professional Experience

Tree Care Industry Association, Londonderry, NH *Web Specialist, 2.2011 - Current*

Acting as the webmaster for all association domains while simultaneously developing and implementing replacement websites utilizing current technology. Integrated IMIS (association management) software with Drupal to create functional logins and provide access to protected content to TCIA members.

CommonPlaces, Hampstead, NH *Drupal Developer, 5.2010 - 2.2011*

Planned and developed custom website solutions using Drupal API. Coded Drupal themes from wireframes and designs, as well as contributed modules and patches to the Drupal community.

Amon Carter Museum, Fort Worth, TX *Drupal Developer, 10.2009 - 3.2010*

Managed the institution's website and all online efforts. Integrated the museum's collection database using JSON, PHP, and the Drupal API to showcase the museum's thousands of records to the public.

Geeks Mobile, Somerville, MA *Web Developer/Designer & Technician, 3.2009 - 5.2010*

Designed 77 SEO optimized websites for nationwide presence. Increased productivity by scripting workflow communications from Quickbase API using Ruby. Performed daily virus removals and laptop repairs.

P3i Inc., Cambridge, MA *Web Manager, 9.2008 - 3.2009*

Maintained the DOT/Volpe Center's internal and external websites. Managed updates to information, added and designed new content for the center's programs and research.

Ektron Inc., Nashua, NH *Tech Support Engineer, 8.2007 - 8.2008*

Assisted customers to resolve issues with CMS400.NET. Debugged IIS servers and MSSQL databases. Maintained customer relationships and a heavy case load while working on the phone & via email.
